

Interested in animal behavior? We are looking for MSc students

Are you interested in doing your thesis in the field of behavioral biology and animal communication?

Our research group studies wild house mice, and we are looking for students to support one of our current projects investigating acoustic individual recognition.

What?

- Experimental research with wild house mice
- Conducting acoustic playback and olfactory experiments
- Learning how to design experiments, collect and analyze data

Where?

We are located at the **Konrad-Lorenz-Institute (KLIVV)** on the Wilhelminenberg in the Vienna woods (16th district).

Who to contact?

Dr. Sarah Zala
